

# IP Monitoring Solution

## Honeywell Internet Monitoring

Honeywell's IP Solution makes your network alarm system communication more secure, rapid and economic by allowing your Vista control panel to communicate to a Central Monitoring Station through a network via TCP/IP protocol.

**Honeywell**

# Honeywell IP-Module

**New product brings a more secure, rapid and economic network alarm system communication for you!**

## Features:

- Rapid and reliable network alarm
- Easy online operation
- Accurate location with global unique MAC address
- Secure information encrypted with international 128 bit AES
- Small, flexible and easy to install
- Compatible with Vista 12a; 48a and 120aP2

## Specifications:

### Hardware

- 8 bit micro-processors unit (MCU)
- Processing rate of 40MIPS
- Flash memory of 64k
- RAM of 4K
- 10BASE-T PHY Ethernet
- Programmed MAC address
- IP address and port of IP module are required to be set with PC-based software

### Power supply

- Operating voltage: DC10V – 15V
- Current: 50mA – 75mA

### Dimensions

- 250mm x 205mm x 45 mm

# Honeywell IP-Receiver

## Features:

- Up to 10,000 alarm devices can be connected to IP Receiver
- Up to 10,000,000 alarm records can be stored in the database
- RS232 serial port cable connecting to CMS software

## Specifications:

- Voltage Input: 180 ~ 265 Vac
- Dimension: 177mm (H) x 482.6mm (W) x 452mm (D)
- Weight 15.2 kg
- Display 4 lines, 20 characters VFD
- Mounting: Rack Mounting
- Operating Temperature: 0°C ~ 50°C
